Sir:

AMENDMENT AFTER FINAL RESPONSIVE TO ADVISORY ACTION

Pursuant to an agreement reached between attorney of record Gerson S. Panitch and Examiner Vanore, this Amendment is submitted to place the application in condition for allowance. The background of this submission is as follows: Applicants submitted a very similar Amendment After Final on June 14, 2010. Prior to making that submission, Applicants provided the Examiner with a draft in order to ascertain the Examiner's reaction. The Examiner advised counsel that upon formal submission of what became the June 14th Amendment, the application would be passed to allowance. Although Applicants complied, on June 22, the PTO issued an Advisory Action rather than passing the case to allowance as had been indicated.

Thereafter, counsel contacted Examiner Vanore, who suggested that claims 47 and 60 be further amended to include a recitation of determining a plane in which the source resides. The Examiner indicated that with such changes, the application would be passed to allowance. Applicants accepted the Examiner's offer, and the Examiner graciously agreed to make the changes by Examiner's Amendment. Nevertheless, to expedite the process, Applicants hereby submit a formal paper incorporating the changes requested by the Examiner in order to place the application in immediate condition for allowance.

Thus, Applicants propose that this application be amended indicated in the **Amendments to the Claims** section, which begins on page 3 of this paper.

Remarks/Arguments follow the listing of claims herein, and begin on page 15 of this paper.
